RVC Contextual Schools 2015/6

This data is only valid for applicants applying to the RVC in the 2015 Admissions cycle. The data is updated annually and therefore may be subject to change in future years.

Yes in either the level 2 or level 3 column indicates that the school concerned is considered as an RVC Contextual School for that level only (e.g. only where an applicant has taken qualifications at that level and at that institution). A no in either column indicates the school concerned is not considered an RVC Contextual School for that level.

Where a school is marked N/A this means that there was insufficient data available to determine whether the school was considered as an RVC Contextual School.
